水保設施 L型側溝Soil and Water Conservation facilities: L-shaped side ditch

**【內文 Content】**

定義: 於坡地道路內側構築之 L 型, 混凝土排水溝。

Definition: L-shaped, concrete drainage ditch constructed on the inside of a sloped road.

目的:

1. 宣洩逕流。
2. 防止溝身及路基沖蝕。
3. 保護邊坡, 防止崩塌, 並利淤積物清除。
4. 兼供車輛行駛。

Purpose:

1. Catharsis.
2. Prevent erosion of trench body and roadbed.
3. Protect the slope to prevent collapse and remove silt.
4. It is also used for vehicle driving.
