

## L 型側溝 L-Shaped Roadside Ditch

何謂 L 型溝？ What is an L-shaped ditch?

### 【內文 Content】

L 型側溝為使用水泥混凝土施做而成的 L 型側溝，其內側較低具有集中水流、渲洩逕流、防止溝身及路基沖蝕之作用，並兼顧坡地排水安全及有效保護邊坡之效益。

The L-Shaped Roadside Ditch is an L-type side trench made from cement concrete. The lower inside has the effect of concentrated water flow, relief runoff, prevention of ditch and roadbed erosion, and takes into account the safety of slope drainage and the effective protection of slope.
